

AUGUSTINE RAPHAEL KADIMU

Full-Stack Software Developer

Dodoma, Tanzania | 0756 841 116 | augustineraphael2020@gmail.com

Portfolio: mr-supercoder.github.io GitHub: github.com/Mr-SuperCoder

PROFESSIONAL SUMMARY

Motivated, detail-oriented full-stack developer with hands-on experience designing and shipping scalable web applications across React, Node.js, Spring Boot, and PHP. Final-year Software Engineering student at the University of Dodoma who has delivered multiple live, production systems for real businesses and organizations, including a full business-management platform and several organizational websites. Strong foundation in RESTful API development, relational databases, and modern deployment practices, with a track record of translating business requirements into efficient, user-focused software.

TECHNICAL SKILLS

Frontend: React.js • Next.js • JavaScript (ES6+) • HTML5 • CSS3 • Tailwind CSS

Backend: Node.js (Express.js) • Spring Boot (Java) • PHP • CodeIgniter • Python

Mobile: React Native

Databases: **SQL Database** PostgreSQL • MySQL, **NoSQL Database** MongoDB

AI & Machine Learning : Scikit-Learn • PyTorch • Pandas • NumPy • XGBoost

APIs & ORM: RESTful API Development • TypeORM

Tools & Platforms: Git • GitHub • Docker • VS Code

Practices: Responsive Design • Cross-Browser Compatibility • Full-Stack Development • API Integration

PROJECTS

GAGMO Management System | *CodeIgniter, MySQL*

- Developed a business management system for stock control, sales tracking, and invoice generation.
- Automated previously manual processes, improving operational efficiency for the business.

Live system: gagmoms.co.tz

MGM Spare Parts Management System | *CodeIgniter, MySQL*

- Developed a complete Spare Parts Management System using CodeIgniter and MySQL to automate business operations
- The system manages inventory, categories, suppliers, customers, purchases, sales, stock monitoring, invoice generation, profit calculation, and business reports with PDF and Excel export capabilities.

Live system: <https://mgm.co.tz/>

MISO Website | Responsive organizational website

- Designed and developed a responsive organizational website for Milo Sayuni Community Organization (MISO Tanzania), an NGO supporting vulnerable children, women, youth, and communities in Tanzania.

Live site: www.miso.or.tz

FDH Website | *Responsive organizational website*

- Designed and developed a responsive site focused on usability, accessibility, and performance.

Live site: www.fdhtz.or.tz

TABUFO Website | *Responsive organizational website*

- Built a responsive site with strong emphasis on user experience and cross-device compatibility.
- Optimized site performance across devices.

Live site: www.tabufo.or.tz

Dodoma STEM Center Website | *Responsive organizational website*

- Developed a responsive website for a STEM-focused organization, prioritizing UX and accessibility.

Live site: dodomastemcenter.co.tz

Additional Development Work | *Academic & personal projects*

- Built multiple academic and personal web applications demonstrating full-stack capability.
- Experience spans API integration, database design, and system deployment.

EXPERIENCE

Software Development Projects | *Academic & Personal*

- Designed and developed full-stack web applications using modern frameworks.
- Built and consumed RESTful APIs across frontend and backend layers.
- Worked with relational databases and ORM tools for data modeling and persistence.
- Applied software development best practices, including version control with Git.
- Collaborated on team projects and managed tasks effectively.

EDUCATION

Bachelor of Science in Software Engineering | *University of Dodoma* | 2022 – Present (Final Year)

Ordinary Diploma in Information Technology | *Sokoine University of Agriculture* | 2019 – 2021
(Completed)

FINAL YEAR PROJECT

AI-Powered Multi-Model Disease Identification System for Cereal Crops

University of Dodoma — applied AI/ML techniques to identify crop diseases from multiple data models, supporting early diagnosis and agricultural decision-making.

CORE COMPETENCIES

- Problem Solving
- Team Collaboration
- Communication Skills
- Attention to Detail
- Adaptability and Fast Learning
